

Appl. No. «10/735,217»
Amdt dated Feb 20, 2007

REMARKS/ARGUMENTS

All pending claims in the present application were allowed as per the Notice of Allowance dated November 20, 2006.

At the time of allowance, the specification contained a cross-reference to a related application which was originally identified by its Docket Number because the related application was concurrently filed, on the same date as the current application. For this reason, the specification is amended as shown above to use the US Application Number of the related application, namely US Application 10/734,860.

This amendment to the specification is directed to correction of a trivial informality. Moreover, this paper is timely submitted because it is being filed with issue fee payment.

This change to the specification should require no additional search. Specifically, the undersigned brought to the Examiner's attention, the file history of US Application 10/734,860 twice, namely (1) in the middle of page 2 of an Information Disclosure Statement filed on January 5, 2005 and (2) in the bottom half of page 15 of an Amendment filed on September 20, 2006. Hence the Examiner is presumed to have reviewed this file history, and any information therein that is relevant to the claims in the current application.

Furthermore, this is a single amendment to the specification which does not require checking of excessive editorial changes to the specification. Finally Applicant submits that no more than a cursory review of the record is necessary, in order to enter this amendment.

Accordingly, entry of this amendment is respectfully requested. Should the Examiner have any questions concerning this paper, the Examiner is invited to call the undersigned at (408) 982-8203.
